PROFESSIONAL EXPERIENCE AND SIGNIFICANT ACHIEVEMENTS

PROCESS OPERATOR

1995 - Present

Company A

- Working 3 & 4 shift systems in a PC controlled, Granulation Suite. Meeting production targets and maintaining output, quality and controlled statistical process on all products.
- Training other Operators when required (shadowing).
- Helped implement a wider variety of preventative maintenance procedures.
- Collating daily and weekly production figures and producing reports.
- Completed all necessary in-process tests, noting or taking remedial action as required.
- Documented all current state of "Work in Progress".
- Helped save the company time and money by eliminating repetitive faults and minimizing returns.
- Instrumental in reducing scrap costs and helping maintain critical stock levels by identifying reasons for scrapping and suggesting new measures for fitting and increasing returns to suppliers.
