SHIFT / PRODUCTION MANAGEMENT

◆ SAP ERP - SAP APO - MRP - JIT - 5s -TPM- Kanban ◆

Over 15 years experience in the automotive sector and 3 years in the food and drink industry. Strong leadership skills gained in a management capacity within a SAP ERP / APO multi-product environment. Impressive record of establishing new control systems (design, implementation and development), meeting company standards and objectives within set budgets, Health and Safety regulations and quality standards. Believing that problem solving skills, multi-tasking, and effective team-working significantly increases efficiencies and productivity, decreasing downtime and reducing costs. Now looking to make a continued significant contribution within a similar position in the North East.

AREAS OF EXPERTISE

- Reducing downtime
- Change Management
- SAP / MRP / JIT / Kanban / 5s/TPM
- Trouble shooting / problem solving
- Cost savings / forecasting
- Supply Chain Development
