PROFESSIONAL DEVELOPMENT

MSc	Computing (London Metropolitan University, U.K.)	2001 - 02
BSc (Hons)	Computer Science (European University of Lefke, Northern Cyprus)	1996 - 00
Certificate	Advanced Telematics (NCFE - Wizard on the Web)	2003
MCSE / MCDBA	Microsoft Certified Systems Engineer (ongoing - 2 exams passed)	2003 - 04

Academic experience / achievements

- Designed a relational database (student / courses / grades etc.) using Microsoft access that also made calculations for the registrations department through a local area network.
- Designed an e-commerce website using the three tier architecture for my postgraduate final thesis (using sessions to identify users for their shopping cart).
- Contributed to a project that was presented in Australia by one of the lecturers.

PROFESSIONAL EXPERIENCE AND ACHIEVEMENTS

DATABASE ADMINISTRATION / WEB DEVELOPER

Jul 03 - Present

Write Company A Here

Working in a team of five, responsible for database design and development and system maintenance (Windows 2000 Prof/Server). Also responsible for requirement analysis, design and program implementation of developing web and database_based applications.

- Designed, maintained and updated the company database (Microsoft access and SQL). Used query language.
- Played a major role in designing the company's website www.n-virotech.com
- Planned pages layouts whilst keeping them to a minimum and assuring no loss in picture quality.

CHARITY / VOLUNTARY WORK

Cancer Foundation, Northern Cyprus

- Spread the awareness of cancer and raised donations for cancer research.

Northern Cyprus (Computer Science Laboratory)

- Installed new software whilst troubleshooting the system. Some hardware installation.
